

**UW-MADISON**

**2003-04 EXTRAMURAL SUPPORT HIGHLIGHTS**

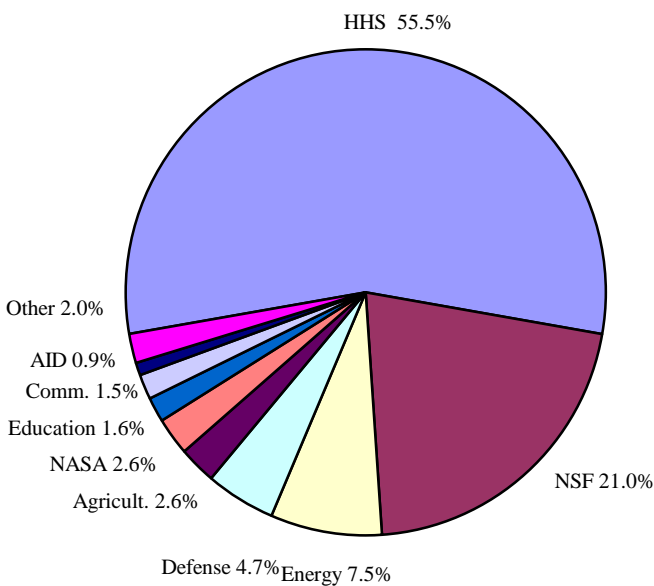

A. Between August 1, 2003 and July 31, 2004, UW-Madison received a total of \$909.6 million in extramural gift and grant awards. Federal awards accounted for 65% of this total; non-federal awards accounted for 35%. Approximately 77% of the awards were for research.

**2003-04 Extramural Support By Fund Source and Activity (in millions)**

| Activity | Non-Federal    | Federal       | Total          |
|----------|----------------|---------------|----------------|
| Research | \$187.3        | \$517.5       | \$704.8        |
| Other    | <u>\$130.1</u> | <u>\$74.7</u> | <u>\$204.8</u> |
| Total    | \$317.4        | \$592.2       | \$909.6        |

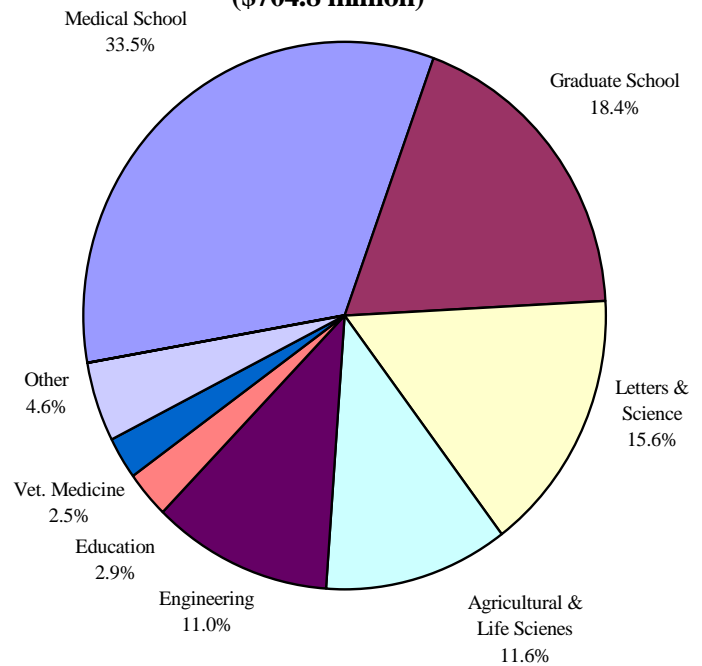

B. Nine federal agencies accounted for approximately 98% of the \$421.8 million that UW-Madison received in federal support for research.

**2003-04 Federal Research Awards By Agency (\$517.5 million)**

C. Seven schools and colleges accounted for approximately 95% of all awards for research; three schools and colleges accounted for almost two-thirds of research awards.

**2003-04 Extramural Support for Research By School/College (\$704.8 million)**

D. The three departments that received the largest amounts of total research awards were Medicine, Space Science and Engineering, and Engineering Experiment Station which were awarded \$53.4, \$39.4, and \$32.4 million respectively.

E. For combined research awards to faculty members, 48% were to those affiliated with the Biological Sciences, 1% to those affiliated with the Humanities, 36% to those affiliated with the Physical Sciences, and 15% to those affiliated with the Social Sciences.

F. Of all faculty members, 34% received non-federal research awards; 37% received federal research awards; and, 54% received either federal or non-federal research awards. Approximately 54% of Professors, 57% of Associate Professors, and 51% of Assistant Professors received research awards.

**2003-04 Percent of Faculty Members Receiving Extramural Research Support By Fund Source and Divisional Affiliation**

| Divisional Affiliation | Non-Fed Only | Federal Only | Both | Total |
|------------------------|--------------|--------------|------|-------|
| Biological Sci.        | 21           | 26           | 29   | 77    |
| Humanities             | 14           | 2            | 1    | 18    |
| Physical Sci.          | 10           | 36           | 25   | 71    |
| Social Sci.            | 19           | 13           | 8    | 39    |
| All Faculty            | 17           | 20           | 17   | 54    |

**2003-04 Number of Faculty Members Receiving Extramural Research Support By Fund Source and Divisional Affiliation**

Prepared by the Office of Budget, Planning and Analysis.

G. For faculty members receiving either federal or non-federal research awards, 62% had research award totals of \$100,000 or more, and 7% had award totals less than \$10,000. (Award totals may include more than one gift or grant.) One hundred and twenty four members had research award totals greater than \$1 million. The largest combined federal and non-federal award total for an individual faculty member was \$22.9 million.

H. From 2002-03 to 2003-04 non-federal research awards increased by 23% (\$28 million). Federal research awards also increased by 28% (\$96 million). Total research awards increased by 23% (\$124 million).

Since 1999-00, non-federal research awards have increased at an average rate of 12% per year; federal research awards have increased at an average rate of 17% per year. Annual federal research awards increased by over \$212 million during that period.

**Extramural Research Support 1999-00 Through 2003-04**
